H792

Multifunctional trolley

Trolley with 2 drawers and 2 shelves

Characteristics

The telescopic guides of the drawers, allow them to be opened 110%. The drawers also include a smooth auto-closing mechanism and a handle with label holder.
The standard colours are: green, blue, yellow and red.
Please ask us for other colours.
There is a lateral handle to make movements easier.
The working surface in tray shape has a perimetrical rim of 20 mm, to avoid falls and liquid spills. As standard it is made in stainless steel, but it can also be made of ABS plastic grey colour on demand.
The ø 100 mm swivel castors, have breaks and circular bumpers. Ask us for other kind of casters.

Structure and Finishings

The modules and drawers are made of reinforced ABS plastic white colour.
The inner structure and shelves are manufactured in stainless steel 18/10

Accessories

The multifunctional trolleys Hidemar serie 700, offer several configuration possibilities, which are completed with a wide range of accessories.
The shape of the drawers allow the use of detachable ISO baskets with dimensions 600x400x100 and 600x400x200 mm
