

H515

Wheelchair

Characteristics

Wheelchair characterized by its great strength and functionality specifically designed for transporting patients in emergency and hospitalization departments.

The seat and back are upholstered in heavy-duty vinyl fabric over a high-density foam. Upholstery colour is up to choice.

Polyurethane armrests, can be folded down, but cannot be removed to avoid loss.

It includes 2 handles for easy movement, two $\varnothing 600$ mm rear wheels and two $\varnothing 150$ mm front wheels with brake.

All components are easily replaceable.

Safe working load: 150 kg

Structure and Finishings

The structure made of steel pipe is fixed and joined by robust welding, with epoxy enamel finish in standard orange or custom color.

Accessories

It includes, as standard, an oxygen bottle holder, an IV pole rod holder and an ergonomic and retractable footrest.
