H517

Wheelchair

Characteristics
Wheelchair characterized by its great strength and functionality specifically designed for transporting obese patients.
The seat and back are upholstered in heavy-duty vinyl fabric over a high-density foam. Upholstery colour is up to choice.
Polyurethane armrests, can be folded down, but cannot be removed to avoid loss.
It includes 2 handles for easy movement, two ø600 mm rear wheels and two ø150 mm front wheels with brake.
All components are easily replaceable.
Safe working load: 300 kg
Structure and Finishings
The structure made of steel pipe is fixed and joined by robust welding, with epoxy enamel finish in standard violet or custom color.
Accessories
It includes, as standard, an oxygen bottle holder, an IV pole rod holder and an ergonomic and retractable footrest.
