

H775

Trolley with 5 drawers (4 medium + 1 big) and 1 shelf

The multifunctional trolleys Hidemar serie 700, offer several configuration possibilities, which are completed with a wide range of accessories.

They are light and noiseless, easy to move and handy use.

The variety of available colours and the different dimensions in drawers, allow different combinations with a huge range of options for different services and specialities.

The standard colours are: green, blue, red and yellow (please consult for more colours)

The telescopic guides of the drawers, allow them to be opened 110%. The drawers also include a smooth auto-closing mechanism and a handle with label holder.

The shape of the drawers allow the use of detachable ISO baskets with dimensions 600x400x100 and 600x400x200 mm

There is a big catalogue of ISO baskets and accessories.

The working board in tray shape is effective and safe due to its perimetrical rim.

There is a lateral handle to make movements easier.

The ø 100 mm swiveling casters, have breaks and circular bumpers.

The structure and working boards are manufactured in stainless steel 18/10

The modules and drawers are made of reinforced ABS

polymers.
