## IMO GROUP: HERITAGE AND INNOVATION

### A Vertically Integrated Legacy

Headquartered in Northern Portugal, we centralize our R&D, metallurgical manufacturing, and service operations. This structure ensures a cohesive, agile, and highly professional response to all customer needs.

### Proven Durability

Decades of engineering expertise result in medical devices built to last. Our commitment to quality is proven by thousands of our beds that have been reliably in use for more than 20 years.

### Expanded Capabilities

The integration of Hidemar brings deep, specialized expertise in medical furniture, allowing the IMO Group to offer a comprehensive and unified healthcare portfolio.

### Unwavering Core Values

Safety remains our ultimate priority. Every product we design and manufacture is underpinned by a profound commitment to responsibility, integrity, and trust across all our partnerships.

# MEDICAL BED EMOTION

A step forward in ICU management

More info:

## EARLY MOBILIZATION

Accelerated treatments with Automatic Full-Rotation Therapy and 1-button Frontal Exit position.

## FALL PREVENTION

Adaptation to each patient with Phased Bed Exit Alarm and connected Nurse Call.

## SAFE CARE

48 cm side rails with soft drop and manual CPR with damping

## PRECISE POSITIONING

Backrest position alarms and digital bed height and angles display

## ADVANCED MONITORING

Quick bed overview with light alerts and control-focused function lock

ICU

## EFFORTLESS TRANSPORT

No-button motorized wheel, retractable transport handles and central brake with alarm

## EFFICIENT PROCEDURES

Full electric platform with 5 hands-free functions and scale with memory

# MEDICAL BED MATRIX E

Accessibility in intensive care

More info:

## EARLY MOBILIZATION

Comfortable patient with dual auto-regression, 30° backrest light indicator and egress position.

## FALL PREVENTION

Screen with bed exit alarm, night light with low position warning and function lock.

## SUPPORT FOR PROFESSIONALS

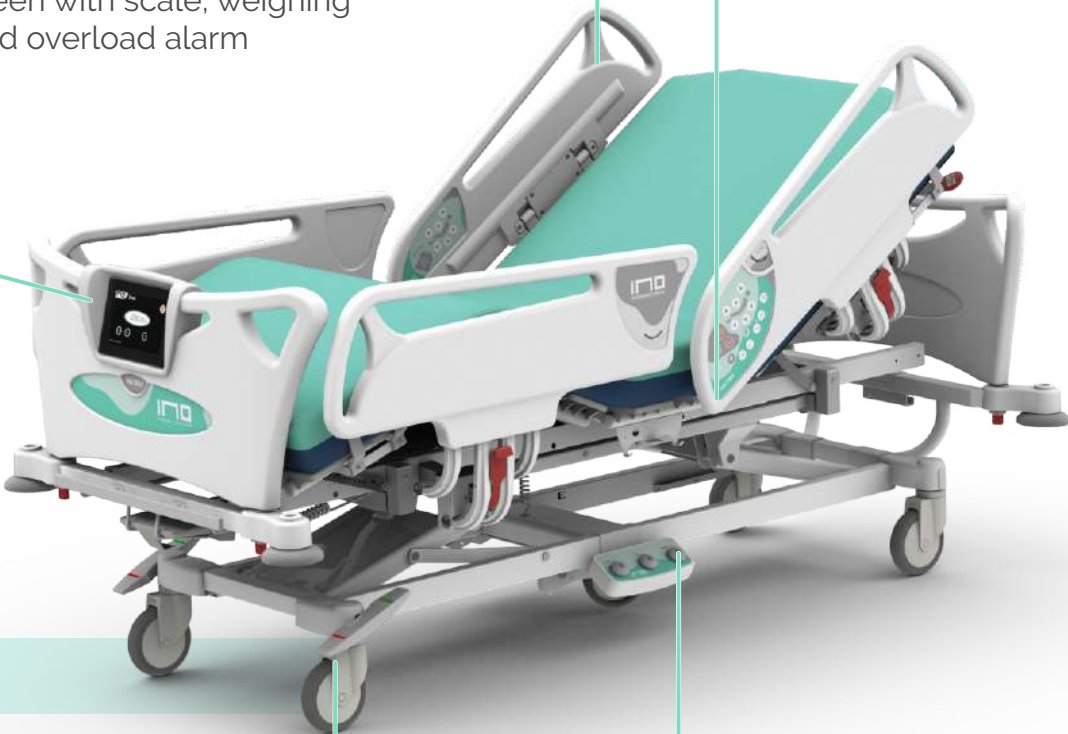

Soft drop full-length side rails and bilateral DIN rails with movable hooks

## ADVANCED POSITIONS

One-button positions, including emergency CPR and Shock

## CONSTANT SURVEILLANCE

Touch screen with scale, weighing history, and overload alarm

ICU

## SAFE TRANSPORT

Central brake with alarm and fifth wheel with shock absorber

## EFFICIENT PROCEDURES

Hands-free electrical functions and one-hand bed extension
